Dear Armani Kris,

I am excited to be applying for the position of data science. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for actionable insights and knowledge from data mining and customer profiling with the goals of driving new account growth and improve retention.

Please consider my experience and qualifications for this position:

- Experience with C, Java, Python, and SQL programming languages, with knowledge of related data analysis libraries
- Knowledge of relational databases, Hadoop ecosystem, and NoSQL databases
- Experience with BI/Reporting/Analytics tools like Tableau, SSRS, SAS
- Knowledge of Data Governance concepts, principles, and processes
- Knowledge of metadata and data quality concepts, principles, and processes
- Demonstrate an analytical approach to solving problems
- Previous experience with machine learning is preferred
- Strong intrinsic motivation and an eagerness to learn and apply new skills

I really appreciate you taking the time to review my application for the position of data science.

Sincerely,

Ryan Becker
