Data Science Cover Letter

10296 Abdul ForestSatterfieldport, MN 02015-7066

Dear Emery Casper,

I submit this application to express my sincere interest in the data science position.

In my previous role, I was responsible for leadership and work direction to a team of Data Scientists and Data Engineers to develop a full-stack scalable machine learning solutions to support intelligent operations initiatives.

Please consider my experience and qualifications for this position:

- Good knowledge of key data providers and related ecosystem – syndicated data providers (TV, Digital, Mobile, shopping,), DMPs, data matching services, data targeting vendors (TV, Digital, Mobile)
- Experience with scientific methodologies, high performance computing, data architecture, data engineering, software development, and modeling
- Practical understanding and application of data science and machine learning techniques like GLM, clustering, support vector machines, random forests
- Have strong interest in Finance, work experience in finance and capital markets preferred
- A strong statistics and mathematics background
- Familiarity with a data visualization tools such as Tableau, D3.js, Shiny
- Knowledge with or willingness to learn large-scale distributed computing tools (Hadoop, Pig, Spark)
- MS in Computer Science, Information systems or Computer engineering

Thank you for considering me to become a member of your team.

Sincerely,

Ari Kuhn
