

Data Solutions Cover Letter

47160 Christiansen LaneNorth Angelpport, NJ 70348

Dear Casey Maggio,

I would like to submit my application for the data solutions opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for guidance to application development areas by applying knowledge of data warehouse design, extract-transform-load (ETL) design and development.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience in leading the development of full end to end data warehousing lifecycles
- SQL Server Analysis Services (SSAS, MDX, DAX)
- Experience in handling an extensive range of data sources outside standard relational stores
- Continuous Integration / Continuous Release processes
- Passion for working creatively with interesting, innovative data
- The capacity to mentor and coach the developers in the team, to increase their overall performance and meticulousness
- Flexibility and willingness to learn new software and adapt to new techniques
- Thought leadership with regards to techniques and technologies to keep the Data Solutions Team at the industry-leading edge of data insight solutions

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Jordan Wolf
