Dear Dallas Collier,

In response to your job posting for data steward, I am including this letter and my resume for your review.

In the previous role, I was responsible for subject matter expertise to the Data Governance Council to develop the Data Standards and Rules for Master Data.

My experience is an excellent fit for the list of requirements in this job:

- Knowledge of CRM (Customer Relationship Management) tools such as Adobe Campaign
- Data processing flowcharting techniques and business process workflow design
- Understanding of capture, update, usage and other core business processes that influence the data lifecycle
- Develop and maintain data quality rules for each data element, support ongoing quality monitoring and reporting processes and the sustained improvement of data quality
- Knowledge of data modeling / architecture principles and techniques
- Experience with project management and software development life cycle
- Advanced knowledge and practical usage of multiple Big Data analytical tools, including HIVE, Impala and Teradata
- Proficient computer skills using

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Blake Hilpert
