

# Data Strategy Analyst Cover Letter

56611 Haag CurveLettyport, SC 83759

**Dear Onyx Leffler,**

I am excited to be applying for the position of data strategy analyst. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for senior level analytic leadership including, but not limited to, business case support, sales results, annual planning and forecasting process.

Please consider my qualifications and experience:

- DM knowledge, tech understanding of data movement/data lifecycle/process flow
- Knowledge/SME in specific business systems
- Understand/document processes
- An experienced Business Data/information analyst with a high level understanding of key business processes, systems and data flows within business processes
- A Data Librarian competent in categorising and managing information on systems and processes reference data management
- An operational background in a customer facing environment with experience of using CRM and order management systems
- Understanding of Data Management and Governance techniques and methodologies
- Awareness of typical marketing database uses, including campaign targeting, modelling and analysis

**Thank you for taking your time to review my application.**

Sincerely,

Shiloh Green
