# Data Team Lead Cover Letter

76877 Schneider CirclesLake Oteliachester, ME 49761

**Dear Haven Wolff,**

I submit this application to express my sincere interest in the data team lead position.

Previously, I was responsible for a strong statistical presence in regulatory and professional circles to influence content of regulatory guidelines and their interpretation in practice.

Please consider my experience and qualifications for this position:

- Experience with business process analytics and process improvement
- Familiarity with the DoD Discovery Metadata Specification (DDMS)
- Experience with programming language (preferably XQuery, Javascript, and Java)
- XML data management
- Design, development, integration, and testing of ETL processes
- Experience in a role as Lead Developer, Team Lead Development, Technical Manager or Technical Lead
- Well versed in the Hadoop ecosystem and experience in Hadoop datawarehouse and/or datalake implementation is a nice to have
- Good knowledge of Business Intelligence tools such as Cognos Analytics, Qlikview, Business Objects

**Thank you in advance for reviewing my candidacy for this position.**

Sincerely,

Rowan Gerlach
