

Data Team Lead Cover Letter

996 Else ThroughwayPort Bernardoview, AZ 44126

Dear Indigo Keebler,

I submit this application to express my sincere interest in the data team lead position.

In the previous role, I was responsible for a strong presence for Pfizer with regulatory and professional organizations to influence knowledge generation and content of regulatory guidelines and their interpretation in practice.

Please consider my experience and qualifications for this position:

- Able to establish and maintain effective relationships with the customer and can gain their trust and respect
- Can accurately scope out the length and difficulty of a task or project
- Extensive experience working within high value and large volume transactional organizations in a large scale and complex enterprise networking environment covering engineering, deployment, and operations
- Proven experience and success as a network engineer analysing, designing and implementing complex network solutions to support long-term business needs, preferably within financial services industries
- Experience implementing lean principles in a data management environment
- Thorough and detail oriented approach to tasks
- Experience with Machine Learning or Statistical Modeling (R, SciPy, Weka)
- Hands-on experience with Cassandra deployment and management within OpenStack or other cloud environments (Azure, AWS, GCP)

Thank you for taking your time to review my application.

Sincerely,

Justice Kub
