Dear Alexis Ondricka,

In response to your job posting for decision analyst, I am including this letter and my resume for your review.

Previously, I was responsible for ml support to the People Business Partners on ensuring correct alignment and quality of data for Voice of Aviva.

My experience is an excellent fit for the list of requirements in this job:

- Experience working with analytics software solutions, such Tableau, SAS, or other similar vendor solutions, is strongly preferred
- Flexibility to multi-task and prioritize across different projects
- Prior relevant work experience in a healthcare setting preferred
- Expert knowledge and extensive interest in Microsoft Office including Excel, Access, Word and Powerpoint preferred
- Comprehensive database knowledge including query and Crystal report writing skills preferred
- Proficient knowledge of cost behavior, managed care reimbursement, business planning, and financial feasibility studies preferred
- Knowledge of medical records coding terminology preferred
- Demonstrates expert skills in statistics, operations research, supervised and unsupervised machine learning methods (including methods for unstructured text analytics), or other mathematical techniques and approaches to drive fact-based decision-making

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Tatum Beier
