

# Derivatives Trader Cover Letter

765 Lindgren FallSulemaburgh, NE 88256-8337

**Dear Armani Zieme,**

I submit this application to express my sincere interest in the derivatives trader position.

Previously, I was responsible for correct and competitive pricing for requests to internal and external customers, trading specific non-linear rates products within the product mandate, the fixed limits and required risk profile of the desk.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Trading equity index options or arbitrage trading experience is a pre-requisite for the role
- Have a basic knowledge of rates, credit, FX and commodity markets
- Knowledge of fixed income derivatives industry, markets and terminology
- Experience trading corporate credit products
- Proficiency in spreadsheets and a data analysis software/language (R, Python, Matlab)
- Programming skills in VBA, R, C#, SQL preferred
- Fixed income futures, commodities, OTC, physicals knowledge
- Proficiency in programming languages (VBA, C++, and SQL)

**Thank you for your time and consideration.**

Sincerely,

Justice Kling
