Designer / Developer Cover Letter

6333 Georgiana BranchEdmundtown, NH 24050-6423

Dear Lennon Kovacek,

I would like to submit my application for the designer / developer opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for on-going support of continuous learning processes throughout our hospitals working with local Education Coordinators.

My experience is an excellent fit for the list of requirements in this job:

- First class designer who is not afraid to code when needed
- Working knowledge of JavaScript, HTML, Struts, EJB, XML, JSP, JSF, JPA, and Web Services
- Experience with SQL Scripting for Database, ANT scripting or MAVEN
- Experience with Apache Lucene, POI, Tomcat, CSS, GWT, Windows Powershell Scripting, VBA scripting, Shell Scripting, Windows Batch Scripting are assets
- Focus on user interface for portal.azure.com with additional focus on metrics / management for high end messaging services showing utilization
- Develop software programs of a complex nature, including operating systems, applications and/or network products
- Develop project plans, functional specifications and schedules for these products
- Design and perform analysis on complex programs and systems

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Gray Turcotte
