Designer / Developer Cover Letter

52498 Jefferson PineHowellborough, AR 40377-1565

Dear Lennon Renner,

I submit this application to express my sincere interest in the designer / developer position.

In the previous role, I was responsible for input on how current training and administration processes can be streamlined and improved.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Excellent programming skills, preferably in Java and/or Python Languages
- Experience shipping innovative, successful commercial products
- Produce, code & deploy content received from the Web Designer & Content Manager for Striderite.com
- Translate designs into html/css content that meet W3C standards
- Deploy/modify content via CMS
- Investigate front-end website bugs and implement HTML/CSS fixes
- Create variations of content for segmentation and A/B testing
- Maintain organized archive of ongoing design files

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Stevie Schiller
