

Designer / Developer Cover Letter

56784 Reynolds Harbor Francinebury, NY 88168

Dear Sutton Kuhn,

I am excited to be applying for the position of designer / developer. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for consultancy and process enablement for worldwide learning practitioners (including worldwide internal and third-party content suppliers) to effectively and efficiently use the enterprise learning platform, tools and processes, supporting global, direct employees and authorized partners.

My experience is an excellent fit for the list of requirements in this job:

- Strong background in user interface design and development
- Coding skills in modern Web 2.0 technologies (HTML5, Javascript, JQuery)
- Experience with Requirements Gathering & Analysis
- Strong understanding of HTML semantics, accessibility compliance, and industry standards for global enterprise web-based applications
- Strong experience with IBM InfoSphere Information Server
- Strong Experience with DB2, and Netezza
- UI Design Tools – Axure/Sketch/Adobe XD/Photoshop (Essential)
- Understanding and comfort level with WordPress CMS

Thank you for considering me to become a member of your team.

Sincerely,

Blake Hills
