

Developer / Engineer Cover Letter

239 Hickle Inlet West Tonistad, MA 18500

Dear Denver Ziemann,

Please consider me for the developer / engineer opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for hands - on leadership, coaching, mentoring, and software engineering best practices to junior developers.

Please consider my qualifications and experience:

- Evaluation, customization and extension of COTS and GOTS products
- Data analysis and generation of custom content
- Advanced information visualization
- Solid experience with High Performance Computing (HPC) environments, scheduling engines (SGE, LSF) and initiating and managing VM's
- Expertise with common bioinformatics workflow management frameworks
- Experience with distributed computing (Spark, Hadoop), cloud computing (AWS, Google cloud) and app containers
- Experience with large scale data transfer over Internet2 and GridFTP
- Knowledge of working in, or managing a professional services organization, or working on large project teams both locally and offshore

Thank you for considering me to become a member of your team.

Sincerely,

Blake Graham
