Developer / Engineer Cover Letter

85479 Tony IsleEast Heath, CO 73907

Dear Riley McClure,

I submit this application to express my sincere interest in the developer / engineer position.

In my previous role, I was responsible for input and best practice feedback for the software development life cycle methodologies, processes and procedures.

My experience is an excellent fit for the list of requirements in this job:

- Proficient in the preparation of design artifacts and models
- Hands-on expert experience with Java – minimally, Java7
- Proficiency with Hadoop & Spark
- Knowledge and experience with building and designing cloud applications
- Experience in working with XML and JSON
- Understanding and comfort level in working with multiple SDLC methodologies – iterative, Agile, SCRUM
- Experience in developing for a Linux operating system (RHL preferred)
- Extensive experience with testing methodologies that cover unit, integration, and system testing

Thank you for taking your time to review my application.

Sincerely,

Ari Jast
