

Developer / Engineer Cover Letter

9413 Bernhard Corner East Nieves, MA 82126-1066

Dear Finley Ward,

I am excited to be applying for the position of developer / engineer. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for guidance on best practices for software development and ensures adherence to organization's IT policies.

Please consider my experience and qualifications for this position:

- Works on projects as a project team member, and occasionally as a team leader
- Quick learner who can master and manage multiple projects simultaneously with minimal supervision and a flexible positive attitude
- Experience with popular web application frameworks, such as Play and Spark
- Understanding fundamental design principles behind a scalable application and class loading mechanisms in Java
- Implementing automated testing platforms and unit tests using JUnit
- Familiarity with continuous integration and tools like Jenkins
- Django, Postgre and Angular
- Web services development, deployment, and integration

Thank you for your time and consideration.

Sincerely,

Gray Vandervort
