

Developer Junior Cover Letter

6370 Lezlie MountainTheodorechester, SC 33173

Dear Marion Hoeger,

I am excited to be applying for the position of developer junior. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for intermediate level system analysis, design, development, and implementation of UI applications for WEB based software.

Please consider my experience and qualifications for this position:

- Understanding of full software development lifecycle experience using Agile / DevOps concepts
- Understanding of Source Code Management (BitBucket , GitHub)
- Knowledge of Java 6 syntax and semantics (including Generics), Java 1.8 runtime will be used within this project
- Creating JUnit service unit and integration test cases
- REST using AJAX (API calls - JSON as the data format, https as communications)
- Experience in MS SQL Server or other database system
- Willingness to learn how to tackle performance issues
- Strong HTML5, CSS3, and JavaScript experience

Thank you for your time and consideration.

Sincerely,

Briar Kub
