

Developer Junior Cover Letter

602 Thomas SpringsErikberg, SC 11311-0285

Dear Denver Gleichner,

In response to your job posting for developer junior, I am including this letter and my resume for your review.

Previously, I was responsible for web design and development expertise in support of both new application development tasks and maintenance.

Please consider my experience and qualifications for this position:

- Experience with platform and systems administration, including Windows, UNIX or Linux, and VMware
- Experience with SAN storage, Active PDF, and NetBackup
- Experience with standard OS scripting and scheduling tools, including PowerShell and Microsoft Management Console
- Experience with .NET Framework and software development languages, including C#, SQL, and MDX
- Experience with established and emerging data technologies, including SQL, NoSQL, data visualization, and unstructured data
- Knowledge of health data transfer communication standards, including DICOM, HL7 W3C, and security standards
- Knowledge of Enterprise Performance Life Cycle (EPLC)
- Prior development experience using Java frameworks

I really appreciate you taking the time to review my application for the position of developer junior.

Sincerely,

Campbell Nader
