

# Developer Junior Cover Letter

773 Louella Forest North Treasabury, WI 79063

**Dear River Hintz,**

I am excited to be applying for the position of developer junior. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for intermediate level system analysis, design, development, and implementation of data services for Web-based systems.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Willingness to document and share knowledge
- Some professional experience in software development or web development
- Good working knowledge of JavaScript or comparable web technologies
- Basic knowledge of SQL, HTML, XML, and CSS, client/server and LAN/WAN administration
- Knowledge of agile software development (scrum)
- Passion for tidy and semantically correct source code
- Working proficiency in English, German nice to have
- Coding skills including knowledge of the C++11 standard

**Thank you for taking your time to review my application.**

Sincerely,

Morgan Daniel
