

# Developer Lead-Java Cover Letter

32839 Hermiston CrestSouth Isiah, KY 09242-5864

**Dear Royal Veum,**

I would like to submit my application for the developer lead-java opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for technical expertise and direction for the electronic hard- and software architecture to development projects and engineering teams.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience with any ESB toolkits like Mulesoft, WSO2
- Familiarity with back-end technologies, including WebServices, servers (Tomcat, JBoss)
- Demonstrate expert understanding of all application development processes including MST's software development methodology, serving as a resource to others
- Understand architectural issues, and factors them into decisions and recommendations
- Facilitate design sessions by presenting logical statements of business problems and designs, and offering and incorporating ideas
- Understanding of commonly used Business Services design patterns (Business Delegate, Session Façade, Abstract Factory, Strategy, EAI/EIP)
- Experience with client side libraries application frameworks like Bootstrap, AngularJS, BackboneJS, jQuery, jQuery UI etc
- Experience with Agile/Scrum development and open source projects is preferred

**Thank you for considering me to become a member of your team.**

Sincerely,
