

Developer Lead-Java Cover Letter

7981 Medhurst ShoreLueilwitzland, WA 02057

Dear Campbell Ward,

I would like to submit my application for the developer lead-java opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for a broad range of engineering services for developmental and operational systems, including requirements management, design engineering, change management, systems engineering, and software engineering.

My experience is an excellent fit for the list of requirements in this job:

- Familiar with Scrum tools such as Enterprise JIRA, IBM Rational Jazz/RTC
- Familiar with big data technologies such as Cassandra, Hadoop
- Experience with messaging systems such as IBM MQ, Kafka
- Sharepoint, Wiki and other distributed collaboration tools
- Platform/core framework development experience
- Experience with web services, preferably SOAP
- Development team management experience
- Experience with Java as primary language, including Spring, Hibernate, Tomcat, Maven, and Git

I really appreciate you taking the time to review my application for the position of developer lead-java.

Sincerely,

Sam Lesch
