

Developer Lead-Java Cover Letter

304 Schroeder Mall West Andreaston, IA 53448

Dear Corey Mayert,

I would like to submit my application for the developer lead-java opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for services to tasks involving engineering development, integration, interface design analysis, integration of infrastructure, and testing of software and hardware.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Enjoy engaging in passionate discussions with people and letting the best ideas rise to the top
- Strong understanding of CS fundamentals, Object Oriented Design and Data Structures
- Excited about technology, have a strong interest in learning and playing with the latest technologies
- Strong Web Application development experience preferably using Java and Javascript
- Experience in Solution Design, Data modeling, REST API design
- Experience in Design Patterns and Restful services architecture design
- Strong knowledge of Object Oriented Programming Design Patterns & Enterprise Patterns
- Experience with My SQL, Postgres

Thank you for considering me to become a member of your team.

Sincerely,

Justice Streich
