

# Developer Lead Cover Letter

279 Welch Inlet Erinshire, NH 15846

**Dear Campbell Adams,**

I would like to submit my application for the developer lead opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for tools management, test automation oversight, and to leverage technology solutions to meet the needs of the organization.

Please consider my experience and qualifications for this position:

- Composing technical specifications and presenting technical solutions
- Should have extensive experience with TFS Builds and Continuous Integration
- Should have excellent understanding of web performance optimization
- Should have clear understanding of CDNs
- Experience in implementation of Web Analytics like Omniture or DTM
- Passionate about technical design producing clean and reusable code
- Hands-on development, software architecture and technical leadership
- Has a true passion for excellence in his/her work, is highly organized, detail oriented, thorough, and follows through on commitments

**I really appreciate you taking the time to review my application for the position of developer lead.**

Sincerely,

Gray Cassin
