

# Developer / Programmer Analyst Cover Letter

7652 Lueilwitz PrairieLake Jackie, TN 03563-0175

**Dear Gray Trantow,**

I would like to submit my application for the developer / programmer analyst opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for input into design and development of systems & apps to meet technical / business requirements in accordance with ANZ's technical standards.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Very strong communication skills preferably with exposure to the American environment
- Very good and consistent to Quality
- Amenable on working long hours and rotational shifts whenever necessary
- Solid understanding of JEE applications
- Knowledge of an Agile based system development methodology
- AWS Hardware/Hosting cloud experience preferred
- Excellent working experience with enterprise patterns (dependency injection, repositories)
- Advanced knowledge of SQL Server preferred

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Briar Hermiston
