Previously, I was responsible for technical expertise when reviewing new systems design and develop plans to develop data and applications in a client/server environment to provide a more cost effective, flexible or user-friendly environment consistent with business objectives.

Please consider my qualifications and experience:

- Strong problem solving and technical, business analytical skills
- Expert knowledge of the Java (7+) enterprise development
- Works as a multi-skilled professional practicing Agile/SCRUM methodologies
- Infogix ACR/Summary and Infogix ACR/Detail development and software knowledge
- Mainframe IBM Z/OS development
- Infogix Assure development
- Infogix Insight Dashboards
- Willingness and aptitude for continuous improvement (new technical concepts and skills)

**Thank you for taking your time to review my application.**

Sincerely,

Dakota Rolfson
