

Developer / Programmer Analyst Cover Letter

403 Zemplak FallsAndersonberg, KS 18473-3300

Dear Parker Corwin,

I am excited to be applying for the position of developer / programmer analyst. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for technical direction and decisions for complex and broad reaching projects on all software platforms including: Operation Systems, Development Tools, Compilers, Testing tools, etc., to ensure technical standards are met according to company and regulatory standards.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Resilient attitude to quickly learn from failures and move on to alternate solutions
- Proven leadership and communications skills
- Experience developing highly usable web and mobile sites
- Experience developing mobile applications on Xamarin, iOS, and Android development platforms
- Strong knowledge of Front-end technologies & languages
- Expert on iOS, Objective C, Swift and having good knowledge of Android development
- Flexible to learn and work on web based application development using technologies such as HTML5/CSS3, AngularJS, Bootstrap, JavaScript & jQuery
- Basic essential understanding of infrastructure landscape databases, webservers

Thank you in advance for reviewing my candidacy for this position.

Sincerely,
