Dear River Langworth,

I would like to submit my application for the developer, web opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for suggestions and solutions for server applications utilizing Java technologies.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience in leading team size of at least 5 member cross-functional team
- Experience in implementing solutions using both existing (Views, CCK) and custom-built Drupal modules
- Knowledge of the Drupal API
- Desirable knowledge includes the use of Features and Patterns modules for release management
- Desirable experience includes developing large scale commercial VOD solution
- Any front-end development (HTML, CSS, Javascript) experience will be highly beneficial
- Be proficient in Web development mode , and deeply understand on the front and back end of the interactive mode
- Node.js, NoSQL databases, Build Tools (grunt or gulp), Apache, PHP, JavaScript Frameworks (backbone, angular,etc), Content Management Systems

I really appreciate you taking the time to review my application for the position of developer, web.

Sincerely,
