Development Expert Cover Letter

4135 Satterfield OverpassTravisshire, WY 37869

Dear Riley Pacocha,

Please consider me for the development expert opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for enterprise-level expertise with the ability to diagnose and troubleshoot software and hardware problems and assist others within the organization.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Knowledge and experience with Elasticsearch / SOLR – advantage
- Knowledge and experience with Hadoop and other big data technologies - advantage
- Deep expertise (8 to 10 yrs+) on Web Development
- Deep understanding of javascript necessary
- Experience with HTML, CSS, JavaScript is preferred
- Good understanding of software engineering processes
- Development background in ABAP, Java or JavaScript optional
- Experience with IVD product development, particularly regulatory submission of IVD is highly desirable

Thank you for your time and consideration.

Sincerely,

Rory Gutmann
