

Digital Data Analyst Cover Letter

8540 Towne LocksAlphonseborough, SC 35195-5016

Dear Parker Runte,

In response to your job posting for digital data analyst, I am including this letter and my resume for your review.

In the previous role, I was responsible for support across Data and Analytics initiatives that support the broader Marketing + Communications organization.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Efficient, adaptable, and unflappable under pressure
- Strong interpersonal, negotiating, and presenting skills to work with constituencies, internal users, senior management, and external personnel on matters requiring coordinated activity across organizational lines
- Familiarity with large data sets and associated issues
- Experience of working in an international business preferred
- Experience within financial services or other regulated industry is preferred
- Analytical and performance driven
- Commercial awareness to support opportunity recognition and recommendations
- Supply Chain or Transportation industry experience

Thank you for considering me to become a member of your team.

Sincerely,

Dallas Bartell
