

# Digital Design Engineer Cover Letter

420 Stehr CircleGaylaborough, WV 19815

**Dear Indigo DuBuque,**

I submit this application to express my sincere interest in the digital design engineer position.

In the previous role, I was responsible for input into the design team focussed on digital design for manufacture and assembly (DfMA) of modular housing product.

Please consider my qualifications and experience:

- Good knowledge of analog circuits and circuit simulators
- Be an excellent decision maker, able to take the information at hand and consistently make decisions that expedite the goals of the project
- System modeling and support in the architecture development
- Building prototypes using advanced libraries, tools and methods
- Work closely with system architects on feasibilities to produce high quality solutions
- Knowledge of HDL languages (SystemVerilog), FPGA and system prototyping
- Minimum 3- 5 of modeling and algorithm development experience
- Some experience in scripting languages, Perl/TCL/Python

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Lennox Ziemann
