Dear Shae Crist,

In response to your job posting for digital developer, I am including this letter and my resume for your review.

Previously, I was responsible for technical solutions on multiple applications and technologies (distributed environments).

Please consider my qualifications and experience:

- CPU architecture, CPU interfaces
- BUS architecture
- Memory architecture
- Digital design, simulation and measurements
- EMC test and problem solving
- Design of analogue audio circuit
- JavaScript development frameworks Backbone, Angular, Meteor
- HTML5, XHTML and CSS3

I really appreciate you taking the time to review my application for the position of digital developer.

Sincerely,

Robin Abernathy
