

# Digital Developer Cover Letter

272 Deana Mills Cummingsview, AL 24489-1244

**Dear Emery Nikolaus,**

In response to your job posting for digital developer, I am including this letter and my resume for your review.

Previously, I was responsible for support for line of business and teammates on your software components for integration in their products.

Please consider my qualifications and experience:

- Work closely with developers and customers to define/refine UI and UX requirements
- Manage multiple concurrent design tracks
- Design and produce interaction models, user flows, functional wireframes, information & site architectures, storyboards, mockups, prototypes, user personas, scenarios, and other UX deliverables as needed for projects
- Expertise with HTML, AJAX, SQL Queries and Stored Procedures
- Experience with Application Performance Monitoring (APM) Setup and Configuration
- Experience with CDN tools, like Akamai
- Experience with synchronous web services and asynchronous messaging such as MQ
- Ekton, EpiServer or Sitecore expertise is preferred

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Cameron Gibson
