

Digital Developer Cover Letter

35930 Erasmo TrackEast Herschel, AZ 09325-8306

Dear Riley Kassulke,

I am excited to be applying for the position of digital developer. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for hands-on configuration and implementation requirements related to Epicor and other related software systems for the company.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Solid experience designing and building API-first applications that integrate with multiple systems and deliver intuitive modern-web user experiences
- Relevant work experience in continuous integration
- Experience deploying web applications in the cloud
- Knowledge of UX and SEO strategies
- Proficiency in the Microsoft development environment - .NET Framework, HTML/CSS, XML, JSON, SOAP, REST, JavaScript, jQuery, Bootstrap, MVC patterns, SQL, C#, C/C++
- Java and J2EE development experience, preferably gained on multi-tier web-based business applications
- Experience with popular web application client-side frameworks such as AngularJS and Backbone and server-side frameworks such as Django and Ruby on Rails
- Detailed background and understanding of web technologies and mobile app development

Thank you for considering me to become a member of your team.

Sincerely,
