

# DIR Strategy Cover Letter

543 Lincoln PortNew Yasuko, OH 20658-9927

**Dear Dakota Kuhn,**

In response to your job posting for DIR strategy, I am including this letter and my resume for your review.

Previously, I was responsible for support to identify and assess financial and accounting impact of Initiative Assessment and Approval Process (IAAP) requests.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Excellent skills developing and communicating strategy documents
- Bridge effectively across technical and non-technical contributors, management and executive leadership
- Extensive strategic experience, preferably gained in Strategy Consulting, Investment Banking, Investment Management or other Financial Services environment
- Significant experience in marketing, strategic planning or product development
- Strong understanding of global fixed income/ credit markets
- Demonstrable experience of leadership and development
- Strong quantitative and analytical skills (including intermediate knowledge of Microsoft Excel)
- Have expertise in areas such as process design and automation, financial reporting systems, ERP systems, profit and loss reporting, audit and both financial strategy consulting and restructuring

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,
