

Director, Clinical Research Cover Letter

1401 Mosciski Crescent East Christopherbury, NE 97510-8477

Dear Emerson Heidenreich,

I would like to submit my application for the director, clinical research opening. Please accept this letter and the attached resume.

Previously, I was responsible for technical guidance and expertise in the area(s) of small molecule process development, pre-formulation developability assessment, formulation development and clinical supplies with a working knowledge of drug development from IND to NDA.

Please consider my experience and qualifications for this position:

- Expertise in pre-award and post-award management of clinical research contracts
- Advanced knowledge in data analysis and modeling
- Advanced knowledge in principles of Lean methodology or other quality improvement methodology with demonstrated success with application of the principles
- RN or similar clinical experience is highly preferred
- The role requires a high performing and energetic individual who demonstrates outstanding scientific knowledge, applicable to nephrology clinical research and the highest and personal ethical standard
- A good understanding of the pharmaceutical clinical development process
- Highest scientific and personal standards and ethics
- Knowledge of applicable U.S. regulations and guidelines

Thank you for taking your time to review my application.

Sincerely,

Parker Swaniawski
