

Director, Testing Cover Letter

817 Gordon GreenSouth Mirtaland, CA 82532-9762

Dear Hayden Kuhic,

In response to your job posting for director, testing, I am including this letter and my resume for your review.

Previously, I was responsible for oversight of compliance and performance improvement efforts for regulatory and voluntarily data collection and submission requirements.

My experience is an excellent fit for the list of requirements in this job:

- Develop people – Takes responsibility for developing people
- Excellent technical/product knowledge relevant to the activities of DB in APAC
- Able to digest complex issues and set a course of action (that others are prepared to follow) to meet specific goals
- Prior experience working in the field of translational medicine, biomarker biology or companion diagnostics is essential
- Experience in strategic approaches to development of biomarkers, novel assay development and data interpretation is essential
- Experience with integration and use of diagnostic technologies in a preclinical and clinical environment is essential
- Experience with automated IHC, NGS, PCR and ISH is essential
- Experience with strategic interpretation of biomarkers between human cancer and mouse tumor models is highly desirable

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Dakota Lemke
