

Director, Testing Cover Letter

1510 Watsica Turnpike
Katlynport, WI 66223-5920

Dear Emerson Boyer,

I am excited to be applying for the position of director, testing. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for technical leadership on Seed Health Testing; work with vendors, internal quality control laboratory and sales and marketing team in the areas of testing portfolio, process controls, data interpretations and reporting to ensure compliance with global regulatory agencies and Syngenta's Codes of Practice.

Please consider my experience and qualifications for this position:

- Consults directly with cross-functional leadership on implementation work that impacts Retail North America and consults globally on best practices for Innovation & Testing
- Experienced in working in matrix environment including onshore and offshore management
- Gating process and software development life cycle expert knowledge
- Requires exceptional interpersonal skills
- Experienced in testing of system information as Billing, Portal, Web Services, BI and other
- Experience in Functional (System Test and Acceptance Test), Integration, Migration, Performance and Automation Testing
- Experience in Automation tools and concepts including QTP, UFT, Selenium and SOAP UI
- Requires excellent English oral and written communication skills

Thank you for your time and consideration.

Sincerely,

Stevie Champlin
