

# Director, Testing Cover Letter

42567 Harvey Heights West Jess, NY 98237-5554

**Dear Casey Crooks,**

In response to your job posting for director, testing, I am including this letter and my resume for your review.

In the previous role, I was responsible for ongoing guidance and in-service and on-the-job training to staff on USAID MEL requirements, MEL data collection tools including the online/electronic data collection systems.

Please consider my qualifications and experience:

- Prior work experience in a testing laboratory setting is most ideal
- Strong record of leading and delivering large, complex programs with a global QA team
- Accomplished organizational change leader within an IT organization
- Demonstrated results in expanding automation and test data management services
- BS in engineering and or computer science or related technical discipline
- Have a balanced level of experience in systems quality, hardware quality and software quality
- Should be a remarkable high-contributor performance record with progression of increased responsibility with identifiable achievements which impact the bottom line and a passion to inspire, and build high performing teams
- Has extensive knowledge and experience base in software development, program management, quality assurance, in their repertoire

**Thank you for your time and consideration.**

Sincerely,

Shae Altenwerth
