

EEG Technician Cover Letter

766 Wolff DrivesLake Madison, SC 39496

Dear Ari White,

In response to your job posting for EEG technician, I am including this letter and my resume for your review.

In my previous role, I was responsible for daily supervision of the EEG team and technical support staff, coordinates patient and team schedules, delegate assignments, supervises and trains staff, and performs complex electro-Neurodiagnostics procedures to ensure the quality of patient care.

Please consider my experience and qualifications for this position:

- Certification eligible for the American Board of Registration of EEG Technologists
- Graduate of or Enrolled as a current student of a CAAHEP (Commission on Accreditation of Allied Health Education Program)
- Accredited END Program OR
- Successful completion of Part I R
- Technologists) examination
- Entry level PC and Microsoft Windows knowledge
- Part I R EEG T
- Explains the test procedure to the patient and responds to their emotional needs, applying all recording, monitoring and stimulating

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Frankie Schneider
