

EHS Engineer Cover Letter

470 Kihn Roads North Tuyet, IA 53022

Dear Tatum McLaughlin,

I am excited to be applying for the position of EHS engineer. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for expert insight to plan and implement environmental, health and safety policies and procedures in compliance with Fiberon, local, state and federal Environmental Protection Agency (EPA) and Occupational Safety and Health Administration (OSHA) rules and regulations. Utilizes established reporting and investigation procedures to conduct incident investigations for accidents, incidents, injuries and complaints concerning potential hazards or unsafe conditions in the work place.

Please consider my qualifications and experience:

- Registered Safety Officer (Green Book)
- Familiar with DOSH / DOE / Local governmental requirements with regards to EHS protocol
- Strong in organizational, communication, inter-personal skills
- Perform Industrial Hygiene assessments for new chemicals (e.g., determine appropriate precautions and PPE requirements)
- Requires a demonstrated willingness and commitment to safety and environmental as the top priority
- Registered Workplace Safety and Health Officer (WHSO)
- Good understanding of OHSAS 18001 and IOS 14001 Management systems and knowledge of Audits process
- Able to work effectively, diplomatically, and calmly in emergency situations

Thank you for considering me to become a member of your team.

Sincerely,

Robin Pagac
