

# EHS Engineer Cover Letter

51902 Scottie GlensElvisborough, MN 18856

**Dear Denver Jenkins,**

I submit this application to express my sincere interest in the EHS engineer position.

In my previous role, I was responsible for safety and environmental audits of new and existing equipment and processes; identifies hazards and hazardous conditions; develops hazard control recommendations; supervises the implementation of controls; and verifies the effectiveness of controls, as authorized.

My experience is an excellent fit for the list of requirements in this job:

- Well versed in Six Sigma, TPM, Lean Manufacturing, Kaizen, RCFA, and 5S methodology
- College or above in major of Environment, safety, health and related
- Thrive in a growth environment, and willing to learn new things
- Strong execution and coordination & communication skills
- Potential to be promoted into EHS Supervisor role
- Experience with high risk operations
- Bachelor of Science in Health, Safety or Environmental Engineering
- Knowledge of Federal, State and local regulations (OSHA, DEEP, Water and Air Permitting)

**Thank you for taking your time to review my application.**

Sincerely,

Indigo Marvin
