

EHS Engineer Cover Letter

337 Isis LockElieland, LA 81232

Dear Rowan Harber,

I would like to submit my application for the EHS engineer opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for assistance to the Facility and Environmental (F&E) Operators to maintain steady state operation of pollution abatement equipment.

Please consider my qualifications and experience:

- Coach, lead, mentor and develop managers, supervisors and employees to achieve EHS objectives and to support individual employee EHS knowledge and development
- Directly and through others, create and implement EHS practices, procedures, metrics, systems and structures to align with best practices and the USDOL OSHA, US EPA and similar regulations
- Regularly conduct Plant EHS audits and assess Plant EHS Risks
- Where applicable, is the primary contact with USDOL OSHA, US EPA and similar regulatory agencies
- Accountable for the effective and efficient allocation and use of all EHS resources
- Aligns EHS initiatives with the EHS and Corporate Compliance directives and programs including the Safety Management System
- BS - Environmental, Health and Safety, Industrial Hygiene, Applied Sciences, Engineering or similar major
- Eligible to be certified as a Certified Safety Professional (CSP) or a Certified Industrial Hygienist (CIH)

I really appreciate you taking the time to review my application for the position of EHS engineer.

Sincerely,
