

Electrical Engineering Intern Cover Letter

120 Antony Crossing
Cartertown, CA 58088

Dear Story Prosacco,

I submit this application to express my sincere interest in the electrical engineering intern position.

In my previous role, I was responsible for management of office CADD programs and activities, chairing the CADD Committee and coordinating with members and other office personnel.

My experience is an excellent fit for the list of requirements in this job:

- Minimum Junior level in a Bachelors Program or higher (or have graduated in the last 12 months)
- Good analytical skills preferred
- Good written and oral communication skills preferred
- Work on Lean Manufacturing projects, Capital projects, Process and Supply Chain Improvement projects
- Experience with of the following programming languages, environments or tools
- Familiarity with design, drafting or engineering software such as MATHCAD, SOLIDWORKS, AUTOCAD, Microsoft Excel is beneficial
- Experience/coursework with Microsoft Office
- Previous experience/coursework with electro-mechanical sensors and actuators

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Armani Schinner
