Dear Story Schiller,

I am excited to be applying for the position of embedded software engineer. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for support for the current Unix/Linux system infrastructure.

Please consider my experience and qualifications for this position:

- Knowledge on Agile methodology or similar
- Experience working with visual design, multi-threading, and formal software methodologies is preferred
- Challenging work on highly innovative projects for international clients
- Possibility to work on various embedded systems ranging from bare-metal to Linux OS on several hardware platforms
- Extensive understanding of network communication protocols
- Understanding of Operating Systems and Real-Time Embedded Systems
- Typical education will be at least a Bachelors in Engineering or Computer Science
- Proven track record in the field of embedded software engineering

Thank you for taking your time to review my application.

Sincerely,

Shiloh Shields
