

Emergency Room Tech Cover Letter

3070 O'Hara Course South Bertramshire, WY 97674-9344

Dear Emery Bins,

In response to your job posting for emergency room tech, I am including this letter and my resume for your review.

In my previous role, I was responsible for clerical support to the department, places patients on and off cardiac monitors, changes batteries on telemetry units, monitors for and promptly reports cardiac rhythm problems, and obtains and posts monitor strips in the medical record.

My experience is an excellent fit for the list of requirements in this job:

- EMT or ERT experience
- Previous experience in health care, including performance of veni -puncture, EKGs and basic assessment skills, preferred
- EMT, CNA, Medical Assistant, or Paramedic
- Successful completion of IV therapy course or IV certified
- Reports and documents all changes in the patient's condition to the primary care nurse in a timely manner
- Assists in the teaching of students rotating through the Emergency Department
- Performs clerical duties necessary to the functioning of the department
- Transports patients, cleans, and prepares treatment rooms

I really appreciate you taking the time to review my application for the position of emergency room tech.

Sincerely,

Marion Glover
