

Eng Prin-Research Cover Letter

7077 Dino Camp New Wilda, RI 60354-0394

Dear Morgan Dare,

I am excited to be applying for the position of eng prin-research. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for technical leadership for a team of Systems and Software engineers in the development and implementation of Software Analysis tools applied to Radar Sensor products.

My experience is an excellent fit for the list of requirements in this job:

- Experience with other optical propagation and modeling tools (Code V, Zemax)
- Other optical skills such as alignment and wavefront testing
- Bachelors of Science in Engineering or Physics or equivalent
- Assist in equipment selection for power source testing, material handling, and storage
- Capture new business from new and existing customers by leveraging the strength of BBN expertise and capabilities

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Robin Terry
