

# Engineer, Data Cover Letter

678 Rolfson Way Willport, NH 33431-2605

**Dear Reese Leuschke,**

I submit this application to express my sincere interest in the engineer, data position.

Previously, I was responsible for technical expertise to the business on business intelligence data architecture and also on structured approaches for transitioning manual applications and reports to the business.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Expert level in Natural Language Processing using Spacy and Gensim
- Expert Machine Learning using Scikit-learn
- Proven familiarity with Redis & ElasticSearch (Kibana)
- Very comfortable with Docker, Kubernetes and deploying to Google Cloud Platform
- Solid development toolset experience
- Familiarity with CloudFoundry
- Experience in AWS and/or Azure
- Awareness of the Life Sciences domain

**I really appreciate you taking the time to review my application for the position of engineer, data.**

Sincerely,

Hayden Rosenbaum
