

# Engineer Lead Cover Letter

5730 Effertz LandTorpberg, AK 86705-7215

**Dear Gray Wilkinson,**

In response to your job posting for engineer lead, I am including this letter and my resume for your review.

In my previous role, I was responsible for overall systems engineering expertise in the architecture, design, development, requirements analysis, data flow, network design and/or implementation, or testing for the program.

My experience is an excellent fit for the list of requirements in this job:

- Experience in leading an engineering team is a merit
- J2EE implementation and support experience
- Solaris versions 10/11
- Open Source Technologies experience
- Scripting (bash, ksh, perl)
- Experience in web based e-commerce testing and mobile testing
- Hands-on experience in writing test code will be added advantage
- Comfortable to write code in Core Java will be added advantage

**Thank you for considering me to become a member of your team.**

Sincerely,

Royal Heathcote
