

# Engineer Lead Cover Letter

58293 Sherwood Underpass West Geraldine, MN 80641

**Dear Emerson Reilly,**

In response to your job posting for engineer lead, I am including this letter and my resume for your review.

In my previous role, I was responsible for a leadership role in the application of architecture and design standards; promoting best practice across BBC.

My experience is an excellent fit for the list of requirements in this job:

- Active technical leadership through out the entire development process, including requirement reviews, development, deployment, setting up environments
- Develop strong expertise in modules of the product
- MySQL, NoSQL technologies
- Continuous integration technologies such as Jenkins, Bamboo
- Familiarity with messaging frameworks such as RabbitMQ, Kafka
- Cassandra, MongoDB, Elastic search development and scaling experience
- Experience with Drools, Activiti
- Experience with using LDAP, Shibboleth, Spring security

**Thank you for taking your time to review my application.**

Sincerely,

Alexis Spencer
