

Engineer Lead Cover Letter

254 Crona FlatWilliamsonburgh, NV 03474-7690

Dear Hayden Homenick,

In response to your job posting for engineer lead, I am including this letter and my resume for your review.

Previously, I was responsible for architecture, design and automation process options to better increase efficiencies with data usage across multiple platforms.

My experience is an excellent fit for the list of requirements in this job:

- Lean manufacturing knowledge and skills
- Any type of coating operations experience
- Sheet metal manufacturing experience
- Metals manufacturing and finishing processes
- A broad understanding of industrial robotics and control systems
- Continuous flow manufacturing experience
- Working knowledge of Google, Microsoft Office, and AutoCAD
- Certified in Six Sigma (min Green belt)

Thank you for considering me to become a member of your team.

Sincerely,

Onyx Wuckert
