

Engineer, Research Cover Letter

7369 Wiza Alley Osintown, MS 39467

Dear Story Lebsack,

I am excited to be applying for the position of engineer, research. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for support to Power Supply Engineering Services for generation plant and distributed generation protection design and settings.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Background in speech recognition technology, computational language, natural language understanding
- Advanced user of Windows and Linux platforms
- Engineering practices in design, coding, and testing
- MS/PhD in computer science, electrical engineering, aerospace engineering, or a related field, or equivalent practical experience
- Experience in software development using C++/Java/Python
- Fundamentals in linear algebra, and probabilistic techniques
- Experience with robotics and AI applications
- Publications at premier peer-reviewed conferences or journals

Thank you for your time and consideration.

Sincerely,

Avery Lehner
